

<b>1. Project Details</b>			
<b>Student Name</b>	Lee Peng Jin	<b>Programme</b>	Bachelor of Software Engineering (Honours)
<b>Supervisor Name</b>	Mr. Tneh Aun Hee	<b>Cohort</b>	202405
<b>Moderator Name</b>			
<b>Project Title/Scope</b>	Weddding (3D Wedding Venue Design)		
<b>Project Type</b>	Web Application	<b>Project Category</b>	Supervisor's Title
<b>Name of Client and/or Competition</b>			

<b>2. Project Scope Moderation</b> (to be filled by Moderator) (Please tick (✓) if comply)	
<b>Project Requirements</b>	<b>Comply</b>
<b>Relevance and contribution.</b> The project is within the area of specialization related to the student's programme of study. The outcome of the project is able to contribute to the IT practices, target market, or knowledge.	
<b>IT content.</b> The project is IT-related and has substantial amount of IT content.	
<b>Technical Skill.</b> The project requires the students to write substantial amounts of programming codes, or use of IT technical skills with the aid of tools.	
<b>Methodology.</b> The project allows the students to apply some kind of system development or research methodology.	
<b>Practicality or Innovativeness.</b> The project should have qualities of practicality and/or innovativeness. For research projects, the project should be meaningful. For application projects, it should either be an industrial project, an internal project or be aligned to an external competition. For entrepreneurial projects, the project should have a unique value proposition.	
<b>Knowledge Expansion.</b> The project allows the students the opportunity to expand their existing knowledge, either in depth or in breadth.	
<b>Scope &amp; Complexity.</b> The project should be of scope acceptable within the limits of resources and capability of students. If the scope is small, then the project should have reasonable level of complexity. The project should focus on quality, but not quantity.	

<b>3. Feedback</b>	
<b>Comments and Changes Recommended (by moderator)</b>	<b>Actions Taken (by supervisor)</b>

<b>4. Assessment</b>			
<b>Item</b>	<b>Criteria</b>	<b>Mark Allocation</b>	<b>Mark</b>
Content	<ul style="list-style-type: none"> <li>• All the necessary information is included.</li> <li>• Discussion is clear and concise.</li> </ul>	10	
Innovativeness	<ul style="list-style-type: none"> <li>• The proposed project is useful/meaningful.</li> <li>• Includes innovativeness in user experience, technical implementation, etc.</li> </ul>	10
